Aspiring Data Scientist | Business Operations & Analytics Background

SUMMARY

Data Scientist with strong foundations in machine learning, statistics, and data analysis, backed by 10+ years of business and operations experience. Skilled in building end-to-end ML pipelines, feature engineering, and predictive modeling using Python and SQL. Proven ability to translate complex data into actionable insights that support strategic and revenue-driven decision-making.

SKILLS

- **Programming:** Python, SQL
- **Libraries:** Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
- **Machine Learning:** Regression, Classification, Feature Engineering, Model Evaluation
- **Statistics:** Probability, Hypothesis Testing, Distributions
- **Tools:** Git, Jupyter Notebook, PostgreSQL
- **Concepts:** EDA, Cross-Validation, Hyperparameter Tuning, Bias-Variance Tradeoff

PROJECTS

1. House Price Prediction Using Machine Learning | [GitHub](#)

- Designed a complete machine learning workflow including data preprocessing, feature selection, model training, and evaluation.
- Applied Random Forest regression with hyperparameter tuning using GridSearchCV to optimize predictive performance.
- Improved baseline model performance through feature engineering and multicollinearity reduction.
- Interpreted model results to explain feature importance and real-world pricing drivers.

Tools: Python | Scikit-learn | Pandas | NumPy | Feature Engineering | Model Evaluation | [GitHub](#)

2. Student Placement Analysis (SQL + Python) | [GitHub](#)

- Analyzed 5,000+ student records using PostgreSQL and Python to identify key drivers of placement and salary.
- Performed data cleaning, transformation, and validation, handling missing values, inconsistencies, and outliers.
- Conducted multi-dimensional EDA across academics, internships, technical skills, and project experience.
- Created visualizations using Matplotlib and Seaborn, identifying practical experience as the strongest predictor of placement.

Tools: PostgreSQL | SQL | Python | Pandas | Matplotlib | Seaborn

3. Amazon Prime Content Analysis Dashboard (Power BI) | [GitHub](#)

- Built a multi-page interactive Power BI dashboard using IMDb and TMDb datasets.
- Cleaned and transformed data using Power Query and developed a structured data model.
- Created KPIs, Top-N analysis, and trend insights using DAX.
- Delivered insights on content distribution, ratings, popularity trends, and top contributors.

Tools: Power BI | Data Modeling | DAX | Data Visualization

4. Balaji Fast Food Sales Analysis & Dashboard (Excel) | [GitHub](#)

- Performed end-to-end analysis on transactional sales data including cleaning and feature creation.
- Developed KPIs such as Total Revenue, Total Orders, and Average Order Value (AOV).
- Used Pivot Tables to analyze product performance, payment methods, and time-based trends.
- Designed an executive dashboard highlighting top-selling items and peak sales hours.

Tools: Microsoft Excel | Pivot Tables | Charts | KPI Dashboard

5. Google Play Store Data Analysis (Python EDA) | [GitHub](#)

- Cleaned and processed app data using Pandas and NumPy.
- Conducted EDA to analyze ratings, installs, pricing models, and category performance.
- Created visualizations to identify factors influencing app popularity and user behavior.

Tools: Python | Pandas | NumPy | Matplotlib | Seaborn

WORK EXPERIENCE

Arihant Refrigeration - Business Operations Executive

Managed operations of a family-owned air-conditioning showroom while maintaining and analyzing sales and inventory data to support business decisions

June 15 - Aug 17 | Jabalpur

Green Grub – Founder & Operations Manager

2016 - 2025 | Jabalpur

- Analyzed monthly sales and booking data to optimize pricing and utilization
- Tracked revenue trends and customer patterns to improve business decisions
- Managed budgeting and cost analysis for profitability

Hydroponics Farming Practitioner - Independent Venture

Jan 2025 - Present | Jabalpur

Completed formal training in hydroponics and currently applying learned techniques in hands-on farming, focusing on system setup, crop monitoring, and yield optimization

EDUCATION

Masters in CS : Artificial Intelligence and Machine Learning

2025 - Present

AlmaBetter | Online

Bachelor in Mechanical Engineering

2011-2015

Gyan Ganga Institute Of Engineering | CGPA - 8.31

CERTIFICATIONS

Hydroponics Masterclass 2.0

2025

Kryzen Biotech Pvt. Ltd.

Elite Trader – Technical Analysis Program

2021

Booming Bulls Academy
